**Subject:** Please Support HB 4795

Members of the House Local Government Committee,

I am writing in support of HB 4795, and I ask you to support this bill as well.

Please continue protecting law-abiding gun owners from unlawful constraints on their right to keep and bear arms imposed by local units of government who are unwilling to follow existing rules. If local units of government are allowed to make their own regulations the inconsistencies will only cause law abiding citizens to potentially be detained or have their property confiscated via misguided local firearm legislation. This can only lead to citizens having to either pay unnecessary fines/penalties, or pursue legal remediation which would be costly for the citizen and a wasteful use of local government funds.

In closing, it is my belief that this legislation is necessary to ensure local governments is held accountable to the law; maintain consistency within the law, and to reinforce Michigan's support for our second amendment rights.

Thank you for your time and consideration of my comments.
